### Once upon a paw & owner agreement

There are some important guidelines that the owner should read carefully and sign below. Any pets that are getting spayed or neutered should not consume a meal twelve hours prior to their set surgery day, if the pet consumes a meal contact OUP office so that we can reschedule the pet. Eating before a surgery can cause death in an animal that is why it's important that they don't eat. If your pet is recommended for boosters they cannot exceed past two weeks. Boosters overdue will not be covered by once upon a paw. All owners approved for the OUP vet help program is to conduct themselves professionally you're representing once upon a paw. OUP is not responsible for any pets injured at paws Chicago. A pet that gets microchip owners have to contact company to neither complete registration OUP nor other organizations associated is not responsible. If you can't make your appointment please notify OUP 24-48 hours before the appointment to reschedule there is no penalties for missed appointments just contact us as soon as possible to reschedule. The only charges that the pet owner will be responsible for is unknown pet pregnancies, pyometras and other medical issues not covered in the OUP vet help program. All fees will be paid to paws Chicago by Once upon a paw it's the owners responsibility to cover what's due to once upon a paw. Fees or any charges not paid could get your application denied in near future.

If you've read and have agreed with the guidelines, please sign and print name below.
